Engineering Stockroom 5-2419

### Hazardous Waste Management

- Keep waste containers capped or sealed, unless waste is being added.
- Attach a completed waste tag to each container – include the accumulation start date.
- Store waste containers in trays to contain potential spills and separate incompatible wastes.
- Wipe up spills promptly.
- **COSE ONLY:** Take waste containers to the stockroom when full or within 60 days of the accumulation start date – whichever comes first.
- **OTHER DEPTS:** Surrender all waste containers to EHOS when full or within 60 days of the accumulation start date – whichever comes first.
