**SAN FRANCISCO
STATE UNIVERSITY**

This annual event features a variety of exciting student projects on display, highlighting our faculty's commitment to providing SFSU students with hands-on experience in the discovery of new knowledge. Come and see an array of projects in biology, chemistry, computer science, engineering, geosciences, math, and physics.

During the showcase, students are competing for a total of \$8,100 in prizes. Let us know if you or your company would like to sponsor the Showcase. It's not too late to put your logo or your name on our program booklet.
