

05/03/07

Dear SPS 2007 Participants,

Are you ready to Showcase your project???

I'll be in the gym starting to set up from 7 am (so don't look for me in SCI 248). An easel or a table will be at your assigned location. Map of the GYM has just been uploaded to www.sfsu.edu/~SPS.html . Foam boards and tri-fold poster boards and many other materials will be available for you to assemble your poster (if you haven't done so).

You can come to 'set up' your station at **anytime before 1 pm**. From 1 - 3 pm you may wander around and check out other projects or leave the premise. **You must come back by 2:45 pm to check-in and get your name tag**. Snacks and water will be provided during the competition. A reception with wonderful array foods will be in GYM 118 after the competition. A short and very interesting talk from Dr. Ray Pestrong will start at 6:40 pm and prize winners will be announced at around 7 pm.

Good luck and have a fun time!!!

Lannie

ps. There are only 110 projects in competition this year and 48 prizes available so your chances to come out with some money are very good.
