All transfer applicants from a US institution must meet minimum CSU requirements (*International transfer students from foreign institutions are not held to minimum CSU admission requirements including the 4-basic subject areas*):

- Complete 60 or more transferable semester units or 90 or more quarter units
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  1. One course in oral communication (grade of C- or better)
  2. One course in written composition (grade of C- or better)
  3. One course in critical thinking (grade of C- or better)
  4. One course in mathematics or quantitative reasoning, (grade of C- or better)

In addition, students must satisfy the following supplemental requirements to be considered for admission to one of the following impacted majors:

**Recommended Courses for Domestic Students:** Students should complete as many of the recommended courses as possible. Students who have not completed these courses before transfer will have difficulty making progress towards their SF State degree in their selected major program. Although these courses are not absolutely required for admission, the impacted department may review completion of these courses when making admission’s decisions.

**Required Courses for Domestic Students:** Students should complete all courses listed as required for admission by impacted programs. Students who have not completed required courses will not be considered for admission by the impacted department.

**International Students:** Transfer students from foreign institutions are not held to minimum CSU admission requirements including the 4-basic subject areas.

For recommended courses, students should complete as many as possible. Although these courses are not absolutely required for admission, the impacted department may review completion of these courses when making admission decisions.
