**Conference Objectives**

**With this conference we seek to:**

- Understand social-emotional intelligence\* (SI) & explore its impact on human health.
- Differentiate bio-social, cognitive & collaborative SI.
- Offer SI skills & strategies for healthy living.
- Learn what conditions & behaviors limit the development of SI.
- Educate health care professionals about SI.
- Explore the shifts necessary for a partnership (SI) world.

\*SI = the art & science of human relationship
