The goal of the FASTrack theme community is to provide academic and social resources for students who are entering college with an undecided major. FASTrack will expose students to a variety of academic and career related resources that will help them narrow down their options and choose a major. In addition, opportunities will exist for students to study together, have small group discussions, and learn college success strategies such as time management, note taking, and getting involved on campus. FASTrack puts students on the right track to graduation!
