Hello Again,

Only about 1/4 of you actually followed my directions to proof-read the first round (email #1 dated Sat 4/29) and within that 1/4 only 1/2 of you actually sent me the email with a copy of the line of your project.

NOW can you ALL proof-read this program (will not be live until after 10 pm. I am still working on it but I need to update my website before going home to continue working on it)?
