

The following article is from the SFSU [Campus Memo](#), Volume 52, Number 11 October 25, 2004.

## Gerontology at SFSU

Ann Hallum, dean of graduate studies, and Gerontology Program faculty invite members of the campus community to participate in discussions about the future of gerontological education at SFSU. Faculty members who have an interest and/or expertise in aging are especially encouraged to participate by serving as members of a task force or as members of a discussion group that will forward information to the task force.
