Dear San Francisco State University Students,

As an alumnus of San Francisco State University I read with great interest the new Student Voices website. Your personal stories reminded me of my years on campus, the concerns I had about paying for tuition and my living expenses while working hard to maintain my grades in pursuit of my teaching credential.

California's future depends upon our ability to keep SFSU and all of our institutions of higher education affordable and accessible.

I encourage you to continue to speak out in support of full funding for education.

Go Gators!

Sincerely,
